Subject: [External_Sender] Submittal for the SNM-95 license amendment request for removing the Hammond Building

Good Morning Ty,
Attached please find an electronic copy of the submittal for the SNM-95 (Docket number: 070-0113) license amendment request for removing the Hammond Building from the Penn State special nuclear material license. One cover letter and two enclosures are included in the submittal. A hard copy of the submittal has been mailed to the NRC for review. Feel free to contact me if you need any additional information. Thank you so much for your great assistance.
Regards,
Yuanqing

Subject: RE: Question about the Form 313 for the upcoming LAR submission

I would accept correspondence without a 313. Just ensure in the subject line or in the body of the letter that you are requesting to amend SNM-95.....to modify locations of use. I'm sure you'll include some kind of summary surveys performed, etc.

Thanks

Ty

Subject: [External_Sender] Question about the Form 313 for the upcoming LAR submission

Good morning Ty,

The license amendment request for removing the Hammond Building from the Penn State License SNM-95 is almost ready for submission. However I have a question for you before I request a signature from the University Senior Vice President for Research. Since we don't request to add new materials in the amendment, I am wondering if it is necessary for us to fill out the NRC Form 313 for the building removal purpose. Thank you so much for your kind assistance.

Regards,
Yuanqing
