Subject: REQUEST: conversation with IP eval team

Good morning, Rao!

As you may know, I am helping to lead the expert evaluation team directed by the Chairman and Margie following the issuance of the Indian Point pipeline event inquiry by OIG. My team would like to have a conversation with you to ensure we have the appropriate background on the issues of interest.

Our focus is to better understand the analysis you conducted and the NRC processes you were working within. We are also interested in how, in general, RG 1.91 and the ALOHA code are used by the NRC and licensees to address these issues. We may have a few other general topic areas to share before we meet, as we are still digesting the information. However, we are looking forward to an informal discussions, so we do not plan to send specific questions or request any particular documents/preparation.

We would like to meet with you early next week but are flexible on timing. Is there a particular time that would work best for you?

Thanks,
Theresa
