Pilgrim Nuclear Power Station
Renewed Facility License No. DPR-35
NRC Docket No. 50-293 and 72-1044

Subject: Revision to the Annual Radiological Environmental Operating Report for
January 1, through December 31, 2019

Reference: 1. Letter from Andrea L. Sterdis (Holtec Decommissioning International)
to U.S. Nuclear Regulatory Commission, "Annual Radiological
Environmental Operating Report for January 1, through December 31,
2019," May 15, 2020 (ML20136A367 and ML20136A368)

By letter dated May 15, 2020 (Agencywide Documents Access and Management
System (ADAMS) Accession No. ML20136A367 and ML20136A368), Holtec
Decommissioning International, LLC (HDI) submitted the Pilgrim Nuclear Power Station
(PNPS) "Annual Radiological Environmental Operating Report for January 1, through
December 31, 2019" (Reference 1).

This letter provides a revision to the PNPS Annual Radiological Environmental Operating
Report (AREOR) for January 1, through December 31, 2019 and the information
contained therein.

During a subsequent review of the CY 2018 and 2019 Annual Radiological
Environmental Operations Report data tables, results were found to contain inaccuracies
that required correction. The inaccuracies in the reported data have been entered into
the site's corrective action program (IR PIL-02320). The affected data tables were
corrected, revision bars were added, and table notes were added to identify the reason
for the data revisions. The revised 2019 report revision addresses and resolves the
inaccurate data table information identified in both the CY 2018 and CY 2019 AREOR
reports. The correction of the data tables did not impact the report's conclusion of no
