Mr. Levich,

This email refers to your license renewal application dated November 16, 2020, Agencywide Documents Access and Management System (ADAMS) Accession no. ML20330A184. In reviewing your application, we have determined additional information is required to complete our review. In order to continue our review, please address the issues listed below. This information is required by Title 10 of the Code of Federal Regulations (10 CFR) Section 32.32, "Manufacture, distribution and transfer of exempt quantities of byproduct material: Requirements for license."

1. Please provide a copy of your current possession license issued by the State of Georgia.
2. In your application under Appendix 10.2: "Exempt Quantity Sources," Gallium-71 (less than 10  $\mu$ Ci) is listed. This isotope is not in the 30.71 Schedule B to 10 CFR part 30. It is a stable isotope. Please clarify the reason this is listed in Eckert & Ziegler Analytics products list for you license renewal application.

We will continue our review upon receipt of this information. If we do not receive a reply from you within 30 calendar days from the date of this letter, we will assume that you do not wish to pursue your application.

Please be aware that upon your request, proprietary information submitted to the U.S. Nuclear Regulatory Commission (NRC) may be withheld from public disclosure. To do this, you must follow the procedures in 10 CFR 2.390(b) including requesting withholding at the time the information is submitted and complying with the document marking and affidavit requirements set forth in 10 CFR 2.390 (b)(1).

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely
