December 9, 2020

Director of FSME
Attn: GLTS
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

To Whom It May Concern:

On November 18, 2020 I sent a letter to your department stating that we had disposed of four (4) tritium exit signs by sending them to The Lighting Source LLC in West Hollywood, CA.

This IS NOT the case. The letter was sent in error and the (4) exit signs have not been sent out for disposal yet; they are still in our possession.

Furthermore, the four (4) signs, which were installed at an LDS Church facility at 910 East Zingler Avenue, Shawano, WI 54166, will be sent to the following licensed disposal facility:

SRB Technologies
2580 Landmark Drive
Winston-Salem, NC 27103

All four (4) of the tritium exit signs are model number B100, which are manufactured by SRB Technologies, and the serial numbers are: 631712, 631713, 631714, and 613715.

As soon as the (4) signs have been sent to SRB Technologies for disposal, you will be notified.

Please let me know if you have any questions, thank you very much.

Sincerely,

Michael Reuter
