

February 22, 2021

Kevin Williams, Deputy Director
Division of Materials Safety, Security, State,
and Tribal Programs
Office of Nuclear Material Safety
and Safeguards
U.S. Nuclear Regulatory Commission
T8-E18
Washington, D.C. 20555-0001

Dear Mr. Williams:

Enclosed is a copy of the proposed revisions to the Colorado Rules and Regulations Pertaining to Radiation Control, 6 CCR 1007-1, Part 5 (Radiation safety requirements for industrial radiographic operations). The proposed revisions were made available for public comment on February 19, 2021 with a request for comments by March 20, 2021. We request NRC's comments by March 29, 2021. The proposed regulations are identified by strike-out/bold text and correspond to the following equivalent amendments to NRC's regulations.

<u>Rats ID</u>	<u>Title</u>	<u>State Section</u>
• 2020-1	Individual Monitoring Devices	6 CCR 1007-1, Part 5

We believe that adoption of these revisions satisfies the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200.

To aid in the review of the proposed draft regulations, we have also enclosed an annotated copy of RATS 2020-1 which identifies each specific section in the proposed rules corresponding to the amended federal rule change.

If you have any questions, please feel free to contact me at 303-692-3371 or James Jarvis of my staff at (303) 692-3454 or james.jarvis@state.co.us.

Sincerely,

Jim Grice
Radiation Control Program Manager
Hazardous Materials & Waste Management Division
