## General Comment

It is imperative that the decommissioning of Palisades Plant be done right. Our community of 200 cottages abuts the Palisades Power Plant. We want the land clear of old pipes and contaminated soil and want to the state of Michigan to be represented in the process to make sure no corners are cut. We are a vulnerable as a result of this power plant. We want our health and land protected. There is great fear of the spent fuel being stored on the movable dunes of one of the largest fresh water sources in the United States. We should not have to be insisting on these basic rights.
