General Comment

Given the large quantities of stored nuclear waste at this site and potential radioactive contamination of Lake Michigan, etc., coupled with depletion of the Palisades Decommissioning Trust Fund, the Public Trust Doctrine insists that the NRC must hold a public hearing the License transfer from ENTERGY to HOLTEC. The NRC must also require a Supplemental Environmental Impact Statement before the license transfer to HOLTEC International is granted. NRC must also not grant any waivers or exemptions to HOLTEC that would allow use of Palisades Decommissioning Trust Fund for site restoration of spent nuclear fuel management.
