General Comment

I am concerned about the large amounts of radioactive material stored near the Great Lakes.

I feel that the NRC must hold a public hearing

Make sure that the NRC requires a Supplemental Environmental Impact Statement before the license transfer to HOLTEC International is granted

The NRC must not grant any waivers or exemptions to HOLTEC that would allow use of Palisades Decommissioning Trust Fund for site restoration of spent nuclear fuel management.

Thank you for hearing the concerns of many Michiganders who are the stewards of the Great Lakes.
