Subject: Amendment request, NRC license no. 21-13125-01, Bronson Methodist Hospital
Date: Tuesday, February 22, 2021 10:49:00 AM

Good morning,

I have reviewed your request dated 1/16/21 to add a new area of use for the subject NRC license.

In a signed and dated letter, please provide the following information:

1. Please state the address on the diagram.
2. Please label "outside" (east) and indicate if there is another structure (south) on the diagram, if applicable.
3. Please label/describe the areas above and below the hot lab, the imaging room and the stress testing room.
4. Please state the areas where radioactive material is administered.
5. Please confirm that no PET material is used at this location of use.
6. Please confirm that all patients will be released in accordance with 10 CFR 35.75 (you do not have any in-patient rooms).

Thank you

Magdalena R. Gryglak
Health Physicist
U.S. NRC Region III
