Carol,

Our Plant in Soda Springs, Idaho (P4 Production LLC – Bayer) is purchasing a Vega nuclear source, 3 mCi Cesium 137, and a detector for density measurement. Vega will not sell us the source because we do not have this specific source holder on our license. We currently have approximately 45-Ce137 sources onsite.

Vega said we must get an amendment to our NRC license. Please see the attached letter regarding this amendment. Please contact me if you have any questions. Also, I am sending this letter electronically but if you would like a hardcopy sent via the mail I would be happy to do that if necessary.

Thank you for your help,

Dave Matyus
Industrial Hygienist
