Subject: [External_Sender] DOA Croc just outside FPL property line

On 3-18-21 around 1330, an approximately 2.75-meter American Crocodile was found deceased on the ocean side of the Coffey Dam area. It appeared to have died from natural causes and considered non-causal to plant operations. After gaining permission from biologist Mark Perry of FWC, we recorded the biometric data below. Due to the size and condition of the carcass, we were not able to get obtain a weight. FWC and USFWS were notified at 1550.
