Dear Mr. Cusumano:

On May 12, 2020 the PWR Owners Group (PWROG) provided an initial schedule for when licensees plan to submit the final supplemental responses to Generic Letter 2004-02 (reference 1). Subsequently, the PWROG provided an updated schedule to you on September 11, 2020 (reference 2).

With the emergent licensing actions associated with COVID-19 several licensee's planned submittal dates have been revised. Therefore, the purpose of this letter is to provide an updated submittal schedule. Industry responses were collected between March 15-31, 2021. Based on the PWROG survey data, to date nine licensees have submitted closure letters to the NRC. The remaining number of licensee submittals per month provided below are best estimates as to when the submittals will occur, and do not represent any commitment, however, they can be used by the NRC to assist with NRC resource planning.

Month and Year – Number of Submittals

March 2021 – Four

April 2021 – Four

May 2021 – One

June 2021 – One

July 2021 - Three

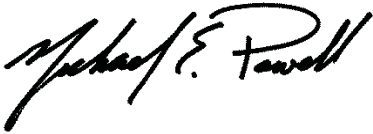

September 2021 – One

October 2021 - One

January 2022 – One
June 2022 – One
