Subject: [External_Sender] Aurora step 1 closure plan

Ben,

I really appreciate the thoughtful feedback that was presented over the last couple days on the plan we prepared. As discussed at the end of the meeting there were a few follow-ups.

- NRC is going to formalize feedback to determine relative alignment (or need for further discussion) on the specific items identified in the closure plan. [Oklo will schedule meeting after the feedback is received]
- Oklo to discuss exemptions internally to propose next steps and which first exemption(s) to be discussed.

I think those were the primary action items but let me know if I missed anything. Based on the conversations today, it seemed like you may be able to prepare your feedback for continued discussion by early next week, but let us know if you think that may change in either direction.

Thanks again!

Ross
