Mr. Dekat/Ms. Sweet:

The purpose of this e-mail is to transmit a request for information (RFI) in support of an in-office review of recent changes to Wolf Creek's Emergency Plan and an implementing procedure which were submitted as a summary document in mid-March 2021 (ADAMS Accession No. ML21098A054). The details of the requested information are attached.

The in-office review will be conducted using IP 71114.04 and it is my intention to complete this review by the end of the 2nd Quarter for documentation in this quarter's report. In support of this desired timeline and balancing other inspection activities, I request that the materials described in the attachment be provided by April 27, 2021, via the electronic portal of the station's choosing. HOWEVER, should this timeline be challenging to complete by April 27 given current station activities (i.e., refueling outage), please endeavor to instead provide the information by May 14, 2021. If you have any questions/concerns regarding this request, please contact me using the contact information below.

This request does not contain new or amended information collection requirements subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.). Existing information collection requirements were approved by the Office of Management and Budget under control number 3150-0011. The NRC may not conduct or sponsor, and a person is not required to respond to, a request for information or an information collection requirement unless the requesting document displays a currently valid Office of Management and Budget control number.

This letter and its enclosures will be made available for public inspection and copying at <http://www.nrc.gov/reading-rm/adams.html> and at the NRC Public Document Room in accordance with 10 CFR 2.390, "Public Inspections, Exemptions, Requests for Withholding.
