Dear Mr. Fuller:

This concerns the subject request for an amendment to your material license in accordance with your letter dated January 13, 2021, to add Weston Caywood, M.D. and Jason Chesley, M.D., as authorized users. You informed us that you will require additional time to obtain copies of Board Certifications and the complete documentation of the training and supervised work experience, as described in 10 CFR 35.190, *Training for uptake, dilution, and excretion studies*; and 35.290, *Training for imaging and localization studies* to support your request. For your convenience, I have included the authorized users weblink contained in the Medical Uses Licensee toolkit for reference: <https://www.nrc.gov/materials/miau/med-use-toolkit/auth-individuals.html#user>. You requested to withdraw your request for the amendment in letter dated April 12, 2021. You can contact this office at Latischa.Hanson@nrc.gov if you have any questions about this letter.
