Gentlemen,

On behalf of Enrique Manzanilla, attached is an overdue but no less sincere letter of appreciation for your investment and participation in the second interagency meeting held on March 17, 2021. Your continued engagement and efforts to develop a collaborative relationship among our agencies is greatly appreciated and particularly important at this time. In addition to expressing our appreciation, this letter confirms our mutual understandings and agreed-upon next steps following the March meeting. We look forward to meeting again this summer.

Best regards,
Sean
