Subject: [External_Sender] My comment OPPOSING dumping NE Church Rock Mine Wastes on Native lands

The U.S. has a LONG, CRUEL, RACIST HISTORY of abusing Native Americans' lands.

STOP IT NOW!!!

Here is my comment about dumping mine wastes (United Nuclear Corporation's uranium mill tailings.)

Native people have lived there for more than one hundred years.

Native people have been ABUSED by toxic mine wastes since 1969.

They want that toxic waste removed to a different location (a safe, licensed location).

They want to survive and be healthy – both as individuals and in the ecosystem where they live.

Repeatedly that have “worked within the system” by appearing at public meetings and hearings sponsored by the EPA and the NRC, but THE GOVERNMENT REPEATEDLY REFUSES TO LISTEN or to take humane actions.

I could add additional information, but I'm assuming that other people will speak up about the various concerns and the actions they have taken.

Simply, I IMPLORE the Health, Education and Human Services Committee to support the rights and the safety of the Navajo people and to work with Executive Branch officials to solve the problem and move mine wastes to a few safe, monitored locations outside of the Navajo Nation.

"Small acts, when multiplied by millions of people, can quietly become a power no government can suppress, a power that can transform the world." — Howard Zinn
