To whom it may concern at NRC,

Please deny GE's request for a license amendment to UNC/GE SUA-1475.

The plan is insufficient because it does not include the documented requests of the Red Water Pond Road community to move the waste out of the area. Please work with the Navajo Nation EPA Superfund to create a new alternative to move uranium waste out entirely, as safely as possible, and not to already overburdened communities. The clean-up must be done to the highest standards including ongoing monitoring of groundwater, air, and soil. This clean-up needs to be immediate. The U.S. must not delay clean-up or base quality of clean-up on available funds.

Docket ID NRC-2019-0026
Report Number NUREG-2243

Thank you for your time,

Morgan Sjogren
