To the NRC,

The following is regarding Report Number NUREG-22423.

Please deny GE's request for a license amendment to UNC/GE SUA-1475.

The current plan is more than insufficient, as it does not include the documented requests of the Red Water Pond Road community to move the waste out of the area.

The NRC should, and needs to, work with Navajo Nation EPA Superfund to create a new alternative to move uranium waste OUT entirely. This initiative should/must be done as safely as possible, and not moved to other already overburdened communities.

Clean up must be done to the highest standards, including, but not limited to, ongoing monitoring of groundwater, air, and soil.

This initiative for clean up needs to be immediate! The U.S. must not delay this initiative or base quality of cleanup on available funds.

Obliged,
Cameo
