---

Andrea – thanks for the message.

The NRC staff will proceed with the formal 10 CFR 50.82 review of the HDI's submittal "Post Shutdown Decommissioning Activities Report [PSDAR] including Site-Specific Decommissioning Cost Estimate [DCE] for Indian Point Nuclear Generating Units 1, 2, and 3," dated December 19, 2019 at ADAMS Accession No. ML19354A698. Your message will be added to ADAMS as the official agency record confirming NRC's receipt of the HDI PSDAR and DCE as licensee for Indian Point. As we discussed, I will notify you once we issue the Federal Register notice and planned schedule for the associated public meeting.

**Subject:** [External\_Sender] RE: Holtec submittals for Indian Point

Rich—

Good morning.

I have confirmed that we have no significant changes and are not planning a revision to the Revised PSDAR submitted by HDI in December 2019.

HDI is working on a licensing action timeline for near term submittals and will be providing a detailed summary within the next 2 weeks.

As we discussed, HDI intends to submit exemption requests and LAR's related to the end of the Zirc Fire window in 3<sup>rd</sup> quarter of 2021. The methodology we will use is currently under review by NRC.

This methodology is expected to make NRC's review of these submittals more efficient (and more importantly, the methodology provides a significant and recognizable safety benefit for permanently shutdown nuclear power plant facilities). We look forward to scheduling a pre-submittal meeting in the July time frame to discuss our proposed submittals and the associated schedules.

Also, as we discussed, we will be working to establish regular NRC touchpoint calls that include NRR and NMSS Project Management as well as the Region 1 site resident, lead inspector and management. At HDI and CDI, we are very excited to have transferred the licenses and ownership of the IPEC site to our Holtec Decommissioning Fleet. We look forward to productive and transparent interactions with NRC, the New York State agencies and the local stakeholders.

Please let me know if you have any further questions.

Best regards,

Andrea
