Good Morning Mr. Erving,

According to the letter dated June 2, 2021, You have been appointed Radiation Safety Officer (RSO) for Hennessey Engineers, Inc. in Southgate, MI (NRC License No. 21-26066-01).

As such, you are responsible for ensuring the safe use of radiation.

Please confirm that you understand that you have been named RSO and that:

1. You are responsible for managing the Radiation Protection Program; identifying radiation protection problems; initiating, recommending, or providing corrective actions; verifying implementation of corrective actions; stopping unsafe activities; and ensuring compliance with regulations.
2. You are delegated the authority necessary to meet those responsibilities, including prohibiting the use of byproduct material by employees who do not meet the necessary requirements and shutting down operations, when justified, to maintain radiation safety.
3. You are required to notify management if staff does not cooperate and does not address radiation safety issues.

And

4. You are free to raise issues with the U.S. Nuclear Regulatory Commission at any time.

In addition, I have attached a list of typical duties and responsibilities of an RSO for you to review. For your convenience, you may provide confirmation of the above by responding to this email.

Please let me know if you have any questions.

Thank you,

Erin Kennedy

U.S. Nuclear Regulatory Commission, Region III

Health Physicist- Materials Licensing
