**From:** Al E. Tester  
**Of:** Tester Construction Inspection Services, Inc.  
2023 W. 5 Mile Road  
Sault Ste. Marie, MI. 49783

**Cellph.** 906 440-6000

**RE:** NRC Material License No. 21-32097-01, Docket No. 030-34748  
Final Amendment to the NRC Material License

The final transaction and sale of the Troxler Moisture Density Gauges Model 3440 and 3411B has been completed. Tyler Christensen of TJC Construction Inspection has taken possession of these items per agreement and permission of your letter dated 4/30/2021. All licensed material will now be stored at TJC Construction Inspection address of 265 West M-80, Sault Ste. Marie, MI. 49783.

I also understand that another Material License will be issued stating that the "Licensee" name will change from Tester Construction Inspection Services, Inc. to TJC Construction Inspection. Also the address will change from 2023 West Five Mile Road to 265 West M-80, Sault Ste. Marie, MI. Hence on the Material License item 10, the storage and use location will only list 265 West M-80, Sault Ste. Marie, MI 49783. The 2023 West Five Mile Road location will no longer appear on the License.

Item 11 stating who is the Radiation Safety Officer (RSO) will be changed from Al E. Tester to Tyler J. Christensen.

All of these changes are the requests of Al E. Tester and Tyler J. Christensen.

If you have any questions, please call.

Thank You,

Al E. Tester 906 440-6000 cellphone
