Subject: Acceptance of VEGP 3-ALT-16: ASME Section III Code Alternative for Remediation of Containment Vessel Unistrut Welding for Vogtle Unit 3

Nick,

This email is your notification that NRC has accepted your ASME alternative, VEGP 3-ALT-16, for review. This means simply that the NRC staff review has determined that the alternative contains sufficient information in order to start the review. No questions have been generated at this time.

Our acceptance review has led to the staff estimating that 280 review hours will be needed to complete this review. If we approach this estimate earlier than planned and more resources are required, I will do my best to ensure that you have the revised estimate in time for your approval prior to exceedance.

Respectfully,

Billy

William (Billy) Gleaves
Senior Project Manager
NRR/Vogtle Project Office
US Nuclear Regulatory Commission
