Ms. Walker,

Thank you for your e-mail earlier today to Jake Zimmerman requesting documents related to NRC's ongoing review of Centrus Energy Corp.'s HALEU Demonstration license amendment request. The NRC's review status, including some related FAQs, can be found at <https://www.nrc.gov/materials/fuel-cycle-fac/usecfacility.html>.

For additional publicly available Centrus related documents, you can also search ADAMS under Dockets 07007003 for the Lead Cascade Facility and 07007004 for the commercial American Centrifuge Plant.

We will also add your e-mail address to the Centrus "listserve," so you can get e-mail notification of publicly available NRC documents related to Centrus, including the SER for the HALEU Demonstration amendment request which we anticipate issuing this month.
