Pamela J. Henderson, Deputy Director
Division of Material Safety, State, Tribal, and Rulemaking Programs (MSTR) Office of Nuclear Material
Safety and Safeguards (NMSS)
U.S. Nuclear Regulatory Commission T8-E24
Washington, D.C. 20555-0001

Dear Ms. Henderson:

Enclosed is a copy of proposed revisions (Supplement 31) to the Maryland Radiological Health Program (RHP) Rules COMAR 26.12.01.01 titled, "Regulations for the Control of Ionizing Radiation (1994)." The proposed regulations are identified by the attached redline strike-out text and correspond to the following equivalent amendment(s) to NRC's regulations. Also attached is a document defining pages in Maryland regulations where proposed changes will be made. The RHP anticipates publishing this proposed supplement in the Maryland Register on or about August 13, 2021, with comments due prior to August 13, 2021.

RATS ID	Title	State Section (s)
2018-1	Medical Use of Byproduct Material - Medical Event Definitions, Training and Experience, and Clarifying Amendments, 10 CFR Parts 30, 32 and 35	Sections C, D, & G
2018-2	Miscellaneous Corrections - Organizational Changes, 10 CFR Parts 37, 40, 70, and 71	Sections T & V

The RHP believes that adoption of these revisions satisfies the compatibility and health and safety categories established in the Office of Federal and State Materials and Environmental Management Programs (FSME) Procedure SA-200. If you have any questions, please feel free to contact Ms. Mary McCormick at 410-537-3301 or 800-633-6101, ext. 3301.

Sincerely,

Eva Nair, Program Manager
Radiological Health Program
Air and Radiation Administration
