SUBJECT: STAFF REQUIREMENTS – SECY-19-0100 –
DISCONTINUATION OF RULEMAKING-INDEPENDENT SPENT
FUEL STORAGE INSTALLATION SECURITY REQUIREMENTS

The Commission has disapproved staff's request to discontinue the Independent Spent Fuel Storage Installation Security Requirements rulemaking and to deny the associated petition for rulemaking filed by C-10 Research and Education Foundation, Inc. at this time. Before deciding whether and how to proceed with this rulemaking, the Commission would benefit from a staff analysis of more options for the scope of the rule and the potential regulatory, resource, and timing impacts of those options. Therefore, the staff should provide the Commission a notation vote paper with a full range of options for this rule.
