Glen Allen, VA 23060

SUBJECT: DOMINION ENERGY KEWAUNEE, INC. – REQUEST FOR ADDITIONAL
INFORMATION REGARDING APPLICATION FOR ORDER APPROVING
TRANSFER OF CONTROL OF KEWAUNEE POWER STATION LICENSE AND
CONFORMING LICENSE AMENDMENT (EPID L-2021-LLO-0002)

Dear Mr. Sly:

The U.S. Nuclear Regulatory Commission (NRC) staff has reviewed the application filed by Dominion Energy Kewaunee, Inc. (the licensee) and EnergySolutions, LLC (EnergySolutions) on May 10, 2021, as supplemented by letter dated May 13, 2021 (Agencywide Documents Access and Management System [ADAMS] Accession Nos. ML21131A141 and ML21145A083, respectively), which seeks NRC approval of the indirect transfer of control of Renewed Facility Operating License No. DPR-43 for Kewaunee Power Station (Kewaunee) and the general license for the Kewaunee independent spent fuel storage installation from Dominion Nuclear Projects, Inc. (Dominion), the parent entity of the licensee, to EnergySolutions. This review identified that additional information is needed for the staff to complete its technical review of the application, as described in the enclosed request for additional information (RAI).

As discussed by telephone call with you on September 16, 2021, provide a response to the RAI or a written request for additional time to respond, including the proposed response date and a brief description of the reason, by 30 days from the date of this letter. Pending the acceptability of your response to the RAI, the NRC staff anticipates completing its technical review as per the schedule in the acceptance letter (ADAMS Accession No. ML21218A141). This date could change depending on the findings of the staff's technical review, urgent assignments, or other factors. The staff will promptly communicate to you any significant changes to this schedule.

The response to the RAI must be submitted in accordance with Title 10 of the Code of Federal Regulations (10 CFR) 50.4, "Written communications," and, pursuant to 10 CFR 50.30(b), "Oath or affirmation," be executed in a signed original document under oath or affirmation. Information included in the response that you consider sensitive or proprietary, and seek to have withheld from public disclosure, must be marked in accordance with 10 CFR 2.390, "Public inspections, exemptions, requests for withholding."

In accordance with 10 CFR 2.390, a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's ADAMS. ADAMS is accessible from the NRC Website at <https://www.nrc.gov/reading-rm/adams.html>.

If you have any questions regarding this matter, please contact me or Mr. Karl Sturzebecher by telephone at 301-415-8534, or via email to Karl.Sturzebecher@nrc.gov.

Sincerely,

Signed by Watson, Bruce
on 09/30/21

Bruce A. Watson, Chief
Reactor Decommissioning Branch
Division of Decommissioning, Uranium Recovery,
and Waste Programs
Office of Nuclear Material Safety and Safeguards

Docket Nos. 50-305, 72-64
