

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

September 15, 2021

Mr. Daniel Harlan
Radiation Safety Officer
Oregon State University
100 Oak Creek Building
Corvallis, OR 97331

SUBJECT: OREGON STATE UNIVERSITY – ACCEPTANCE OF REQUEST FOR
RENEWAL OF SNM-2013 (ENTERPRISE PROJECT IDENTIFICATION NUMBER
L-2021-NFR-0002)

Dear Mr. Harlan:

The U.S. Nuclear Regulatory Commission (NRC) staff has received your submittal dated July 31, 2021 (Agencywide Documents Access and Management System (ADAMS) Accession Number ML21235A325), requesting the renewal of Special Nuclear Material License SNM-2013.

We have completed our acceptance review of your submittal and have identified no administrative omissions or deficiencies that would prevent us from proceeding with a detailed review. Your submittal has been assigned Enterprise Project Identification Number (EPID) L-2021-NFR-0002. Please reference this number and Docket Number 70-7019 in any future correspondence associated with this request.

Please note that the NRC staff's technical review of your submittal may identify issues that could require you to provide additional information. Based on our preliminary evaluation and projection of current review schedules, we anticipate completing our formal review by March 31, 2022. This schedule includes the issuance, if needed, of a request for additional information (RAI) by October 29, 2021, and receiving your response to the RAI 30 days after its issuance. Please note that these dates could change depending on the findings of our technical review, urgent assignments, or other factors. Within 30 days after completion of the NRC staff review of your application/submittal, a notice will be published in the *Federal Register* to inform the general public of the NRC staff's decision regarding your submittal. We will promptly communicate any significant changes to the schedule. Since Oregon State is an educational institution, licensing fees are not directly billed to your organization. Staff expect that review of your renewal application will take approximately 300 hours.

In accordance with Title 10 of the *Code of Federal Regulations*, Section 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of the NRC's ADAMS. ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

If you have any questions regarding this communication, please contact me at 443-980-6077, or via e-mail to Jennifer.Tobin@nrc.gov

Sincerely,

A handwritten signature in black ink that reads "Jennifer C. Tobin". The script is cursive and fluid, with the first letters of each word being capitalized and prominent.

Jennifer C. Tobin, Project Manager
Fuel Facility Licensing Branch
Division of Fuel Management
Office of Nuclear material Safety
and Safeguards
