SUBJECT: HALEY & ALDRICH, INC., REQUEST FOR ADDITIONAL INFORMATION, MAIL
CONTROL NO. 628367

Dear Mr. FitzPatrick:

This is in reference to your letter dated August 19, 2021, requesting to amend NRC License No. 06-28529-01. In order to continue our review, we need the following additional information:

1. Your August 19, 2021, letter requested that Mr. Ryan Beauregard be approved as your new Radiation Safety Officer (RSO). Your letter included an attestation of technical competency and indicated that Mr. Beauregard had completed RSO training. Please provide a copy of the RSO training certificate or authorized user training certificate in accordance with Item 7 of Appendix B in NUREG-1556, Volume 1, Revision 2, "Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Portable Gauge Licenses". The NUREG guidance may be found at the following address: <https://www.nrc.gov/docs/ML1617/ML16175A375.pdf>.
2. Awareness only, no response required - Your amendment request letter indicated that Mr. Beauregard was replacing Mr. Brett Grunert as the RSO. However, your current license amendment, Amendment No. 11, lists Mr. Peter Falce as the RSO. This will be reviewed in your upcoming routine inspection.

We will continue our review upon receipt of this information. Please reply to my attention at Jonathan.Pfingsten@nrc.gov.

In order to continue prompt review of your application, we request that you submit your response to this letter within 15 calendar days from the date of this letter.

An electronic version of the NRC's regulations is available on the NRC Web Site at: www.nrc.gov. Additional information regarding use of radioactive materials may be obtained on the NRC Web Site at: <http://www.nrc.gov/materials/miau/mat-toolkits.html>. This site also provides the link to the toolbox for updated information on the revised regulations for naturally-occurring and accelerator-produced radioactive materials (NARM).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>. Please be aware that you may request that certain

portions of your submittal to NRC be withheld from public disclosure as proprietary information. To do this, you must execute an affidavit as specified in 10 CFR 2.390. You must list all portions that you wish to be held proprietary, along with your reasoning as to why that is appropriate. While it is allowable, please refrain from submitting proprietary information in support of a license unless necessary. Keep in mind that all NRC licenses are considered to be in the public domain, and therefore may be viewed by any member of the public who requests to see them.

If you have any questions regarding this request for additional information, please contact me at 610-337-5170 or via electronic mail at Jonathan.Pfingsten@nrc.gov.

Thank you for your cooperation.

Sincerely,

Jonathan Pfingsten, Health Physicist
Commercial, Industrial, R&D
and Academic Branch
Division of Radiological Safety and Security
