Subject: Update NRC Estimate of Review Hours for VEGP 3&4, LAR-21-001, "Clarification of ITAAC Regarding Invessel Components"

Amy,

By email dated, August 30, 2021, NRC provided an estimate of review hours for the subject LAR. Based on the number of staff assigned from various disciplines, the estimate is being updated and is far more certain than was the original 200 hr estimate. So that being said, our new estimate is 275 hours for completion of the review. If you would like to object or discuss this revised estimate, let me know and we will be happy to have a call.

If you have any questions, please contact me.

Respectfully,

William (Billy) Gleaves
Senior Project Manager
NRR/Vogtle Project Office
US Nuclear Regulatory Commission
