Facility Operating License Nos. NPF-90 and NPF-96  
NRC Docket Nos. 50-390, 50-391, and 72-1048

Subject: **Emergency Plan Implementing Procedure Revision**

Pursuant to Title 10, Code of Federal Regulations (10 CFR) 50.54(q)(5), and 10 CFR 72.44(f), the Tennessee Valley Authority (TVA) is submitting a description of change to the Watts Bar Nuclear Plant (WBN) Radiological Emergency Plan (REP). The affected document is the WBN Emergency Plan Implementing Procedure (EPIP) listed below:

<u>EPIP</u>	<u>Revision</u>	<u>Title</u>	<u>Effective Date</u>
4	46	Site Area Emergency	09/13/2021

**Description of Changes**

EPIP-4 revision 46 enacted the following changes:

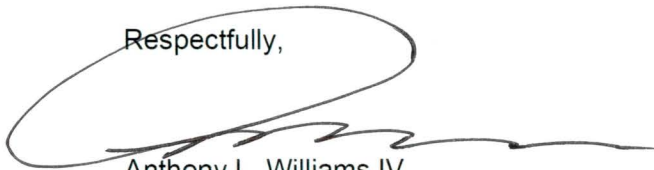

- Corrected title of EPIP-1 (Emergency Plan Classification Logic) in the References.
- Corrected a typographical error in Attachment 4 (Notification of the Nuclear Regulatory Commission (NRC) (NRC Event Notification Worksheet)) to state Site Area Emergency instead of General Emergency.

The above change was evaluated in accordance with 10 CFR 50.54(q)(3) and 10 CFR 72.44(f). TVA determined that the change did not reduce the effectiveness of the WBN REP. The WBN REP, as revised, continues to meet the requirements in Appendix E to 10 CFR 50 and the planning standards of 10 CFR 50.47(b).

There are no new regulatory commitments in this letter. Please direct all questions concerning this matter to Mike White, Emergency Preparedness Manager, at (423) 365-3232.

Respectfully,

A handwritten signature in black ink, appearing to read 'Anthony L. Williams IV', with a large, loopy initial 'A'.

Anthony L. Williams IV  
Site Vice President
