Hello Jim,

As discussed, UNC is providing the attached response to comments on the NRC's Safety Evaluation Report (SER) received from the US Department of Energy Office of Legacy Management (DOE) in a letter dated July 21, 2021, as well as UNC's additional comments proposing minor corrections to the SER for NRC's consideration.

The attached version does not include the attachment to response to DOE Comment 2 (MWH Pre-Design Study – Appendix B1.2) due to the file size. I will send this to you in two separate emails.

Please response to confirm receipt of this email and document.

Best regards,
Lance
