Framatome Comments on Draft Safety Evaluation for GALILEO Implementation in LOCA EM  
Topical Report (ANP-10349P Revision 0) – NON-PROPRIETARY

### Framatome Comments:

#### Draft Safety Evaluation for GALILEO Implementation in LOCA EM Topical Report (ANP-10349P Revision 0)

Page/Line	Text in SE	Concern	Proposed Change
p. 4, line 19	"...corresponding uncertainties has been..."	Change wording slightly	"...corresponding applicable uncertainties have been..."
p. 7, line 10	"...centerline temperature at the same."	Add "elevation" to the end of the sentence	"...centerline temperature at the same elevation."
p. 7, line 25	"... [ ]..."	typo	To be consistent with how " [ ] " is annotated in the previous paragraph.
p. 8, line 9	"... [ ]"	Replace "power" with "pressure"	"... [ ]"
p. 8, Lines 19-20	"For plans with [ ]"	Add article "an" to sentence	"For plants with an [ ]"
p. 8, Line 24	"NRC staff reviewed the cladding thermal response during an SBLOCA transient."	Add clarifying wording	"NRC staff reviewed Framatome's technical evaluation of the cladding thermal response during a SBLOCA transient performed as part of the implementation of the GALILEO fuel rod code."
p. 9, Line 20	"...use of GALILEO as FPC in SBLOCA EM"	Add article "the" to sentence	"use of GALILEO as the FPC in the SBLOCA EM"
p. 10, Lines 37-41	"The NRC staff is specifying the following limitation on the approval of ANP-10349P. Framatome shall publish the accepted version of ANP-10349P as a supplemental document to the approved final versions of both RLBLOCA TR (EMF-2103) and SBLOCA TR (EMF-2328)."	Framatome believes this limitation should be handled by making the statement that this topical is a supplemental document to both the SB and LB EMs in the conclusion section. Framatome will also make this statement in the submittal letter for the approved version.	N/A
