

Grand Gulf Nuclear Station

95002 Exit Presentation

Building the Premier Utility

October 4

We exist to grow a world-class energy business that creates sustainable value for our four stakeholders – customers, employees, communities and owners.

Opening Comments

Unplanned Shutdowns

Grand Gulf experienced five unplanned shutdowns in 2020. These shutdowns occurred following our Spring, 2020 refueling outage.

The 2020 refueling outage was highlighted by a major modification to the station's Turbine Control System – intended to bring long-term and improved performance to the site.

Excellence Plan

Ongoing improvement milestones have been developed featuring

- Equipment reliability improvements
- Benchmarking
- Leadership development
