## **II. Background**

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection:* NRC Form 798, "Request for a Medical Exception to the COVID-19 Vaccination Requirement".

2. *OMB approval number:* 3150-0249.

3. *Type of submission:* Extension.

4. *The form number, if applicable:* NRC Form 798.

5. *How often the collection is required or requested:* Once.

6. *Who will be required or asked to respond:* Medical providers will complete section B of the form for NRC employees seeking a medical exemption to the Federal employee vaccine mandate.

7. *The estimated number of annual responses:* 10.

8. *The estimated number of annual respondents:* 10.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 5.

10. *Abstract:* Executive Order (EO) 14043, titled, "Requiring Coronavirus Disease 2019 Vaccination for Federal Employees," requires all Federal employees, as defined in 5 U.S.C. § 2105, to be vaccinated against COVID-19, with exceptions only as required by law. Requests for "medical accommodation" or "medical exceptions" will be treated as requests for a disability accommodation and evaluated and decided under applicable Rehabilitation Act standards for reasonable accommodation absent undue

hardship to the agency. An employee may also request a delay for complying with the vaccination requirement based on certain medical considerations that may not justify an exception under the Rehabilitation Act. The agency will be required to keep confidential any medical information provided, subject to the applicable Rehabilitation Act standards. Employees who receive an exception or a delay from the vaccination requirement would instead comply with alternative health and safety protocols. NRC Form 798, "Request for a Medical Exception to the COVID-19 Vaccine Requirement" will be completed by employees who seek a medical exception and by their personal medical providers.

2. Is the estimate of the burden of the information collection accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?
