**Subject:** [External\_Sender] RE: ACTION - Request for Comments on the Proposed Issuance of Amendment to Technical Specifications for Fermi Nuclear Power Plant, Unit 2 (EPID L-2021-LLA-0057)

Mr. Arora,

This is in response to your request for comments regarding amendments to the Fermi 2 technical specifications (ADAMS Accession No. ML21090A194).

My staff have reviewed the amendment request and relevant NRC subject correspondence. We have no additional comments or questions on the amendment.

Thank you

T.R. Wentworth II, Manager

Dear Mr. Wentworth,

The U.S. Nuclear Regulatory Commission (NRC) plans to issue an amendment to Fermi Nuclear Power Plant, Unit 2 (Fermi 2) technical specifications (TS) pursuant to 10 CFR 50.90, in response to DTE Electric Company's proposed amendment request referenced below.

DTE's amendment request, dated March 31, 2021, is publicly available in the NRC's Agencywide Documents Access and Management System (ADAMS) at Accession No. ML21090A194.

It appears from the distribution shown on the DTE's submittal that a copy of the amendment request was also cc'd by to Michigan Department of Environment, Great Lakes, and Energy.

The proposed amendment would revise the Fermi 2 Technical Specifications (TS) to remove some obsolete information, make some minor corrections, and make some miscellaneous editorial changes. Additionally, the amendment would incorporate specific TS changes, such as: adding completion times to sections 3.3.7.2 and 3.3.7.3 for required action A.2, removing "testable" from part c of surveillance requirement 3.4.5.1, changing "position titles" in sections 5.1.2, 5.2.1, 5.2.2, and 5.7.2, and removing the core operating limits report reference from section 5.6.5.

On June 15, 2021, the NRC had issued a proposed finding that the amendment involves no significant hazards consideration in the *Federal Register* (Reference: Vol. 86, No. 113, 31741).

Please let me know if the Michigan State has any comments on this proposed amendment by November 26, 2021.

Thank you for your time.

Regards,

**SURINDER ARORA, PE**

Project Manager, Fermi 2
