Subject: Amendment Request to Remove Seaman Gauge from NRC License No. 50-35114-01

Hey Scott,

I'm working on your amendment to add material to your license and remove your Seaman gauge. In order to remove the gauge from your license, I need your most recent leak test results, along with the transfer and receipt documentation. The vendor should have supplied you with this information. As soon as I receive this information, I can move forward with completing your request.

Please submit the requested information by December 6, 2021. Please send it by email. Be sure to use the pdf format. If you have any questions, please feel free contact me.

Thanks

Michelle R. Simmons

Leak Test Certificate

A leak test has been performed on meter, serial number **L566**, a model C-200, containing the radionuclide Ra 226

Owned By: Knik Construction Company
6440 South Airpark Dr.
Anchorage, AK 99502

Date Sample Collected: 5/1/21
Collected By: S. Judah
Date Sample Analyzed: 6/3/21
Analyzed By: M. Lowe

Most regulatory agencies consider a source to be leaking if a leak test reveals the presence of more than 0.005 microcurie of removable contamination.

Analysis found contamination of less than 0.005 microcurie.

Analysis authorized by Wisconsin license 079-1257-01.

LEAK TEST DUE: 11/1/21

I do not think so. I do not know why that is on license. I have been working for Knik since 2015 and have never seen or heard of a C-300 gauge in our possession.

Thanks,
Scott

Hey Scott,

Did you ever possess a C-300 Seaman gauge?
