Good Morning Amy,

On second thought please send me a letter (pdf) signed by John Fernandez, Vice President, Operations requesting that we add the two prospective authorized users for 10 CFR 35.100, 35.200 and oral administration of sodium iodide I-131 and removing the request for parenteral administrations.

Regards,
Bob

Hi Amy,

I would not need any additional information and could sign the license this week.

Bob

Mr. Gallagher,

Thank you for the requested information notice. If we wished to proceed with the authorization of both physicians for 10 CFR 35.100, 35.200, and oral administration of sodium iodide I131 but not parenteral administrations, what additional information would be required?

Thank you,

Amy M. Patrick, M.S., DABR

License No. 47-01458-01
Docket No. 03003375
Control No. 629299

PLEASE CONFIRM RECEIPT OF THIS REQUEST FOR ADDITIONAL INFORMATION (RAI) BY RETURN EMAIL

Ms. Patrick:

This RAI refers to the letter dated November 16, 2021 requesting the addition of two physicians as Authorized Users on License No. 47-01458-01, issued to United Hospital Center. In order for us to continue our review please submit the following additional information:

1. Your letter requests Adam M. Hackney, M.D. and Cory A. Smith, D.O be added as authorized users for 10 CFR 35.100, 35.200, and oral administration of sodium iodide I-131. The NRC Form

313A (AUT) for both physicians indicates that you are requesting authorization for both physicians for parenteral administration of any radioactive drug that contains a radionuclide that is primarily used for its electron emission, beta radiation characteristics, alpha radiation characteristics, or photon energy of less than 150 keV, for which a written directive is required. From the information contained in the NRC Form 313A (AUT) for both individuals it appears that neither physician meets the training and experience requirement for parenteral administrations. Please confirm you wish Dr. Hackney and Dr. Smith be authorized for 10 CFR 35.100, 35.200, and oral administration of sodium iodide I131.

We will continue our review upon receipt of the above requested information.

Regards,

Re: NRC License #47-01458-01; amendment request for additional information

In response to the request for additional information, we would like to request that Adam M. Hackney, M.D. and Cory A. Smith, D.O be added as authorized users for 10 CFR 35.100, 35.200, and oral administration of sodium iodide I-131 requiring a written directive with no restriction on quantity and remove the request for parenteral administrations.

If you have any questions or require additional information, contact our Radiation Safety Officer, Amy Patrick, at (681) 342-1832. Her email address is patricka@wvumedicine.org.

Thank you.

Sincerely,

John Fernandez
Vice President, Operations
