SUBJECT: AMENDMENT OF RADIOACTIVE MATERIALS LICENSE FOR COMMUNITY HEALTH NETWORK, INC., NRC LICENSE NO. 13-06009-01 AND TERMINATION OF RADIOACTIVE MATERIALS LICENSE FOR COMMUNITY HEART AND VASCULAR HOSPITAL, NRC LICENSE NO. 13-24834-01

Dear Ms. Bell:

In the letter dated October 22, 2021, you provided the U.S. Nuclear Regulatory Commission (NRC) of a request to transfer the licensed material and the locations of use located at 1400 N. Ritter Avenue, Indianapolis, Indiana, 8075 N. Shadeland, Indianapolis, Indiana, and 1402 E. County Line Road, Indianapolis, Indiana from NRC License No. 13-24834-01 for Community Heart and Vascular Hospital to NRC License No. 13-06009-01 for Community Health Network, Inc. and terminate NRC License No. 13-24834-01. Additionally, you requested to add six authorized users to NRC License No. 13-06009-01.

You submitted information sufficient to permit the transfer of licensed material and facilities located at the addresses above from NRC License No. 13-24834-01 to NRC License No. 13-06009-01. Based on its review, the NRC staff has concluded that all licensable radioactive material at the locations above has been transferred from NRC License No. 13-24834-01 to NRC License No. 13-06009-01. Enclosed is Amendment No. 104 to your NRC License No. 13-06009-01 in accordance with your October 22, 2021 request.

Based on the conclusion above, no further remediation or actions with respect to NRC-regulated material are required on the part of Community Heart and Vascular Hospital. The NRC understands that all records concerning the safe and effective decommissioning of the facilities at 1400 N. Ritter Avenue, Indianapolis, Indiana, 8075 N. Shadeland, Indianapolis, Indiana, and 1402 E. County Line Road, Indianapolis, Indiana have been transferred to and will be maintained by Community Health Network, Inc., NRC License No. 13-06009-01. Accordingly, NRC License No. 13-24834-01 is hereby terminated. A copy of the amended license, Amendment No. 32, is enclosed.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. NRC Region III office at (630) 829-9887 so that we may provide appropriate corrections and answers.

An environmental assessment for this action is not required because this action is categorically excluded under Title 10 of the *Code of Federal Regulations* (CFR) Section 51.22(c).

The enclosed document contains sensitive security-related information.  
When separated from this cover letter this letter is uncontrolled.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation; or imposition of a civil penalty; or an Order suspending, modifying, or revoking your license as specified in the NRC Enforcement Policy. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance that NRC expects of its licensees.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <https://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

NRC's Regulatory Issue Summary (RIS) RIS 2005-31 provides criteria to identify security related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through NRC's ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390 of the NRC's "Rules of Practice and Procedure," the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC's Generic Communications Web page under "Regulatory Issue Summaries" at <https://www.nrc.gov/reading-rm/doc-collections/gen-comm/>, and the link for frequently asked questions regarding protection of security-related sensitive information may be located at <https://www.nrc.gov/reading-rm/sensitive-info/faq.html>.

A copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's ADAMS, accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Frank P. Tran
