Molten Aura Labs, LLC sells a product containing less than 2% source material in the form of transparent yellow colored borosilicate glass. These glass rods and tubes are sold by the pound. In each pound (approx 453.6 grams total glass weight), there is less than 9 grams of source material.

Over the course of the year, Molten Aura Labs has sold approximately 1,301 pounds of glass containing source material.

Let me know if you have questions or need any further information at this time.

Regards,

Adam Wiens
