Re: NRC License 07-12153-02//Exemption Request

Dear Jan:

This is a request for an exemption from Annual Radiation Safety Training requirements described in 10 CFR 35.310(a), 35.410(a), and 30.34 (Annual Radiation Safety Training License Condition).

Due to the current surge of COVID-19, ChristianaCare is operating under Crisis Standards of Care to meet the demand for hospital and health care services during this unprecedented time. With our patients' needs in mind and considering our healthcare system's limited resources (both human resources and material resources), the Radiation Safety Committee of ChristianaCare would like to request an exemption for the above-mentioned annual radiation safety training requirements. We are hoping the exemption can be granted to us for the year of 2022 and will re-evaluate the situation and hopefully resume our annual radiation safety training program in 2023.

If you have any questions, or need any additional information, please do not hesitate to contact me or Xiaoqian (Carol) Wen, RSO at (302)623-3839.

Sincerely,

A handwritten signature in blue ink, appearing to read "Timothy Bowers".
