RE: Approval of TFN for Anadarko Bear Creek Source Material License SUA 1310, TFN 06/4/362

Dear Ms. Maness

This letter approves the above referenced TFN which permits, as was instructed in NRC letter dated February 15, 2015, Anadarko to plug and abandon the remaining monitoring wells associated with the Bear Creek Site SUA 1310 in preparation for transfer of the site to the Department of Energy for long term care and maintenance. Wells should be plugged and abandoned in accordance with water quality regulations. Records of abandonment should be provided to the LQD upon completion.

Receipt of this letter grants Anadarko Bear Creek, authority to make changes as outlined in the modified license. In the event that revisions other than those listed in the TFN request inadvertently occurred within this package, those revisions are not automatically considered approved.

This operation is not within Sage Grouse Core Area, and has not stipulations related to Governor's Executive Order 2019-3

If you have questions please contact Ryan Schierman at (307) 777-77757 or at ryan.schierman@wyo.gov.

Sincerely,

Kyle Wendtland
Administrator, Land Quality Division
