Subject: New Area of Use

Licensee: Monument Health

License number: 40-00238-04

This is a request to commission a new area of use. This area is new construction, of an HDR% vault. A shielding report, from Petrone Associates is included. Once construction is completed, the after loader will be relocated by Nucletron service engineers. A shielding survey will be performed prior to use. A copy of this survey will be submitted to the NRC. Once this is completed the current HDR vault will be decommissioned and the appropriate paperwork and surveys will be submitted to the NRC.

Thank you,
