---

Mr. O'Rullian:

The NRC has initiated the technical review of your license amendment request submitted in application dated February 4, 2022 and letter dated February 3, 2022. Please provide the following information in a signed and dated letter to continue the review of this license amendment request. This information is needed to enable the NRC to make 10 CFR 30.32(i) calculation (to determine if an emergency plan is needed), to make 10 CFR 30.35 calculation (to determine if financial assurance is needed), and to make 10 CFR 37 calculation (to determine if additional security measures are needed) as a result of your request for establishing possession limits to NRC license 11-35111-01.

1. Item 8.I. of the license for depleted uranium:
  - A. Indicate total kilograms of depleted uranium that will be possessed under the license.
  - B. Indicate total activity of depleted uranium that will be possessed under the license.
  - C. Indicate use code.
2. Item 8.L. of the license for Am-241:
  - A. Indicate maximum activity per source of Am-241 that will be possessed under the license.
  - B. Indicate total activity of Am-241 that will be possessed under the license.
  - C. Indicate use code.

Thank you for your cooperation.

Roberto J. Torres, M.S.  
Acting Branch Chief  
Materials Licensing and Decommissioning Branch  
U.S. Nuclear Regulatory Commission, Region IV
