Dear Mr. Register:

Our office had received the May 30, 2018 (ML18156A125) request for NRC to amend Curators of the University of Missouri's (your) U.S. Nuclear Regulatory Commission (NRC) Materials License No. 24-00513-32 to approve an alternate disposal method for licensee generated radioactive waste pursuant to [Title 10 of the Code of Federal Regulations \(CFR\) Section 20.2002](#). As requested in your communication dated October 8, 2021 (ML21288A010), your request has been withdrawn and this action has been administratively closed. This administrative closure is without prejudice as the licensee stated it is no longer pursuing requested amendment. Your request and subsequent communications are available electronically from the NRC's Agencywide Documents Access and Management System (ADAMS) and is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you determine that an alternative 10 CFR 20.2002 disposal method is needed in the future, you may resubmit your request. If you have any questions regarding resubmittal, please contact U.S. NRC Region III Office at (630) 829-9892.

In accordance with [10 CFR Section 2.390](#) of the NRC's "Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public

Document Room or from the NRC's ADAMS accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.
