Subject: a question about the Southeastern Land LLC authorized locations of use
Date: Wednesday, March 2, 2022 11:28:00 AM

Mr. Potter, Mr. Adams and Mr. Boyd:

The letter dated January 4, 2022 states that Screaming Eagle Coal, LLC has acquired the following locations from Southeastern Land, LLC: the Peach Orchard Preparation Plant and Loadout Facility and each Orchard Preparation Plant No. 2, approximately 2 miles south of Bickmore on Route 16.

According to the Southeastern Land, LLC license, the following locations are authorized for use: the Peach Orchard Preparation Plant and Loadout Facility, and Peach Orchard Preparation Plant No 2, approximately 2 miles south of Bickmore WV on Route 16, **and at the former WiNoc Preparation Pant approximately 5 miles east of Bickmore West Virginia on Route 17.**

We cannot transfer the Southeastern Land, LLC license until we know the status of the WiNoc Preparation Plant. If that location is not part of this transfer, then Southeastern Land, LLC will need to retain the license and Screaming Eagle Coal, LLC will have to apply for a new license for the Peach Orchard plants. Please let me know which licensed materials [specific and general] remain at the WiNoc Preparation Plant, and the status of that facility currently authorized on the Southeastern Land, LLC License No. 16-35383-01.

Please respond using a signed letter from management representatives. A pdf copy of a signed letter may be submitted by email.

Thank you for your attention to this,
