Subject: Final Status Survey for 30 Gando Drive

Discussion:

Mr. Cross of Timken facilitated the call with Mr. Harris to discuss the Final Status Survey of 30 Gando Drive.

Specifically, I asked if tritium wipes were taken in the ventilation ducting leading from the evaporator to roof of the building. Mr. Harris stated that none were taken, but they would be glad to go back and take wipes for tritium analysis.

I asked that a few wipe be taken in the duct work at the entry point, first bend and the outfall of the duct work on the roof.

Mr. Harris that he would make that happen and get the results forwarded to the NRC.

Action Required: Submission of additional survey results
