

## PUBLIC MEETING ANNOUNCEMENT

Title: Meeting with NuScale Power, LLC on Operator Training Accreditation Process

Date(s) and Time(s): March 23, 2022, 01:00 PM to 02:00 PM ET

Location: Teleconference

Category: This is an Observation Meeting. This is a meeting in which attendees will have an opportunity to observe the NRC performing its regulatory function or discussing regulatory issues. Attendees will have an opportunity to ask questions of the NRC staff or make comments about the issues discussed following the business portion of the meeting; however, the NRC is not actively soliciting comments towards regulatory decisions at this meeting.

Purpose: This is a follow-up meeting to the November 09, 2021, observation meeting where NuScale informed the NRC staff that they are working with INPO to develop a vendor-accredited training program that could be used by a facility licensee to provide qualified personnel to operate the facility. During the November 9, 2021, meeting NuScale indicated that education and experience requirements relative to current requirements for licensed operators at power reactors could be reduced. The NRC staff requested this follow-up meeting to better understand the reason for this change and also whether the proposed approach will be consistent with Commission policies for education and experience.
