Dennise,

A few final (I hope) questions:

1. Will Dr. Misailidis be kept on as an authorized user?
2. You have requested that Chad Mitchell, Ph.D. be named Radiation Safety Officer (RSO) on the license. It appears that this individual may be an outside consultant\contractor. If this is so, in support of this request, please address the following:
 - a. Describe the relationship that will exist between the consultant-RSO and the institutional management regarding expenditure of funds to facilitate the objectives of your radiation safety program and related regulatory requirements.
 - b. Identify any other commitments of the consultant-RSO for other NRC or Agreement State licensed facilities, along with a description of how the consultant-RSO will allocate time to permit the performance of the duties of the RSO as described in the regulations. State the consultant-RSO's minimum amount of on-site time (hours per week).
 - c. Appoint an in-house representative who will serve as the point of contact during the RSO's absence. This person may be allowed to assist the consultant RSO with limited authority.
 - d. Describe the overall availability of the consultant-RSO to respond to questions or operational issues that arise during the conduct of your radiation safety program and related regulatory requirements. Specify the maximum amount of time it will take the RSO to arrive at the facility in the event of an emergency that requires his presence.

Thank you. Let me know if you have any questions.

Shawn

Hi Shawn,

Welcome back, how was the conference? Here is Chad's contact info:

Chad A. Mitchell, Ph.D., DABR
Krueger-Gilbert Health Physics, Inc.
809 Gleneagles Court, Suite 100
Towson, MD 21286
Mobile: 240-626-1544
Office: 410-339-5447 x 114
Fax: 410-339-5449
Cmitchell@kruegergilbert.com

His mobile number and email are usually the best way to reach him.

Cheers,
Dennise

Dennise, do you have an email address for Dr. Mitchell? Is his phone number the same as the previous RSO?

Thanks.

I spoke with Dr. Padha, and he called the ABR as well to inquire about the certificate

update. When he took the second board in 2018 the ABR was not printing AU Eligible on those certificates. In 2020 they decided to add that seal to that certificate, but they will not re-issue certificates to anyone who took the board prior to 2020. I am attaching a verification of certification letter from the ABR dated for today, but unfortunately, they would not budge on an updated certificate.

Best,
Dennise

Thanks. I was looking to see if you had a more recent copy of his ABR certificate with AU Eligible. I know he just "re-upped" in 2020. Thanks.

Hi Shawn,

Thanks for the call and follow-up email yesterday! Attached is the corrected Form 313 for Dr. Padha specifying 35.100 and 35.200 and his original board certification with the AU Eligible stamp. We intended to include the 2018 ABR board certificate in addition to the letter from Dr. Misailidis (previous RSO/AU) to help establish that Dr. Padha has been active in the department and has been tested on some of the key categories that would be required knowledge for an AU since his initial qualification. We wanted to show that although he has not been listed as an AU previously, he has remained active in the Nuclear Medicine department. Apologies if that caused any confusion.

I gave the licensee an update yesterday and told them not to expect anything until sometime in April. They were relieved and pleased to hear that the amendment

package is currently under review. Safe travels to the SNM conference!

Best Regards,
Dennise

P.S. Both Chad and Lisa said to tell you hi as well.

As a follow-up to our conversation earlier, we need an updated/correct Form 313 for Dr Padha. We also need an ABR certificate that has the phrase "AU Eligible" above the certification seal. You may email them to me at shawn.seeley@nrc.gov

Let me know if you have any questions.

Shawn
